Istanbul, Türkiye • Recently relocated from Paris, France • svlbgmgrcn@gmail.com • +90 5457419896

Education

Bahcesehir University — **Istanbul | Expected graduation: 2027**
B.Sc. Artificial Intelligence Engineering — GPA: 3.29/4.00
B.Sc. Industrial Engineering (Double Major) — GPA: 3.33/4.00

ISEP (Institut supérieur d'électronique de Paris) — **Paris | Spring 2026**
Erasmus+ Exchange, Artificial Intelligence Engineering & Computer Science

Experience

DOĞUŞ HOSPITALITY & RETAIL GROUP
Digital Marketing Intern — Istanbul Sep 1, 2026 – Present

- Analyze digital marketing restaurant KPIs and customer-review trends to identify seasonal patterns and busier months.
- Clean and analyze concert datas in Excel to support demand forecasting and event planning.
- Prepare pricing data with Harmona AI, Obenan and VenueX; test AI outputs and report weekly feedback.

MICROSOFT
AI Innovators Internship Program — Jun 29, 2026 – Aug 17, 2026

- Built GlobalMobility EDU, a local RAG assistant using Foundry Local, Phi-4 Mini and Qwen3 embeddings.
- Designed source-cited, role-aware retrieval for exchange procedures, Learning Agreements and course recognition.

ARZUM
Digital Transformation & IT Intern — Istanbul *Jul* 2025 – Nov 2025

- Supported RPA, SAP S/4HANA MDG, ERP, procurement, contracts and cross-functional implementation projects.
- Coordinated suppliers and legal, finance, HR and operations; supported training and technology-focused PR.
- Produced survey analyses, management reports and executive presentations for workflow improvements.

Projects

Eventoria | React, TypeScript, NestJS, PostgreSQL, WebSockets

- Implemented the frontend and backend of authentication and role-based chat features for an event-management platform.

MyEditor | C++17, OpenCV, CMake

- Implemented morphology, Canny edge detection, unsharp masking and pencil-sketch effects for a team-built image editor.

Childok | React, NestJS, PostgreSQL, JWT, Google OAuth

- Implemented JWT-based registration and login flows and Google OAuth for a full-stack parenting platform featuring a community forum, resource articles and an AI-assisted chatbot.

Leadership & Activities

VICE PRESIDENT OF ACADEMY DEPARTMENT — *BAU Industrial Engineering Society* | Sep 2024 – Jul 2026

- Organized Excel, AI and data-focused training sessions and technical visits; moderated Sector Days Summit discussions with industry professionals.

SOCIAL MEDIA & COMMUNICATIONS DIRECTOR — *BAU Artificial Intelligence Society* | Sep 2024 – Oct 2025

- Led content strategy and created promotional content for AI Revolution 360, featuring Amazon, IBM, Microsoft and NVIDIA speakers; increased Instagram engagement by 55.3% and profile visits by 69.4%.

CS Bridge — Stanford University & Koç University | 2021

- Selected for an eight-week computer science program covering programming, algorithms and problem-solving; developed a Pacman game in Python as final project.

Skills & Certifications

Technical: Python, C, C++, C#, Java, JavaScript, Git, Docker, Excel, UiPath RPA, PowerPoint, Canva
Languages: Turkish (Native), English (C1; Academic IELTS 7.5, PTE 90), French (A2–B1), Spanish (A2), German (A1–A2)
Professional: Cross-functional collaboration, leadership, executive communication and public speaking
Certifications: *IBM* Introduction to Artificial Intelligence (with Honors), *Duke University* Introduction to Logic and Critical Thinking Specialization, *University of Minnesota* Optimization for Decision Making, *Microsoft* Foundations of AI and Machine Learning
